Issue links:	Cloners clones CPR-1654 Sales History filtering by Product ID... Done		
Sprint:	CPR DevOps Sprint 7		
Team:			

Description

Filtering by product ID doesn't work in the Sales History secondary page of the Summary tab.

☐ DULOXETINE 30 MG DR CAP 30

Clear all

Show results

After playing with the filter for a bit they start showing unexpected results. Example:

Applying COntract Type filter first:

Applying Contract Type filter after applying other filters previously:

NOTE: The odd behavior isn't consistent. It doesn't always happen and, when it does, it may happen with other filters.

Comments

Comment by Collazo, Hiram [31/Aug/26]
Abreu, Javier just test this functionality - Pagan, Anibal can you check if changes are in stage
Comment by Pagan, Anibal [31/Aug/26]
Collazo, Hiram Abreu, Javier the behavior of the second issue mentioned isn't consistent. I also got it to happen on another chart-- OTIF Exceptions
Comment by Dili, Florentine [31/Aug/26]
Reassigned this to me. WIP
Comment by Dili, Florentine [31/Aug/26]
Opened a PR for this.
Fixed the Product Name filter for the following tables: OTIF Exceptions Sales History Products Outside Threshold In Sales History, also fixed: the Product ID filter the Contract Type filter Verified that adding a Status filter in OTIF Performance now works correctly on the first attempt, and I no longer see the issue there.
